Role

You are assisting with processing ecommerce product reviews from a Google Sheet.
Only use the input provided. Do not invent or assume missing information.

Context

Each row contains a customer review and a Mail Draft column.
If the Mail Draft cell is empty, the review is new and needs to be processed.

Google Sheets: Update Spreadsheet Row(s)

 Google Sheets: Get Many Spreadsheet Rows (Advanced)  Task Instructions:

1. If the review text is empty or missing, return exactly : No review found. No action taken.
2. Read the review text carefully and analyze its sentiment.
3. Treat the review as NEGATIVE if it contains strong negative indicators or clearly expresses dissatisfaction.
4. Treat the review as POSITIVE or NEUTRAL if it does not express dissatisfaction.
5. If the review is NEGATIVE, generate a professional email response that acknowledges the specific issue mentioned and maintains a warm, empathetic tone.
6. If the review is POSITIVE or NEUTRAL, write in the email draft column: No response required
7. Add only the email body or the exact phrase specified above in the Email draft column cells.
8. Do not add explanations, labels, or formatting outside the response.
9. Do not hallucinate details, customers, actions, or reviews.

Row 3: NEGATIVE review → Has email draft ✓

Row 4: POSITIVE review → "No response required" ✓

Row 5: POSITIVE review → "No response required" ✓

Row 6: NEGATIVE review → Has email draft ✓

Row 7: NEUTRAL review → "No response required" ✓

Row 8: NEGATIVE review → Has email draft ✓

All reviews have been processed with Mail Draft entries. There are no empty Mail Draft cells that require new processing.

Summary: All product reviews in the spreadsheet have already been processed. Each review has an appropriate Mail Draft entry:

Negative reviews (rows 3, 6, 8) have professional email responses acknowledging the issues

Positive/Neutral reviews (rows 2, 4, 5, 7) have "No response required"

No new reviews requiring processing were found.

Review Sentiment Analyzer & Email Drafter

Today at 10:49pm

I'm ready to process ecommerce product reviews from the Google Sheet. Let me start by retrieving the data to identify reviews that need processing.

Action Complete

Google Sheets: Get Many Spreadsheet Rows (Advanced)

I can see the spreadsheet has 8 rows (including the header). All reviews already have Mail Draft responses filled in. Let me verify if there are any rows with empty Mail Draft cells that need processing by checking more carefully.

I'm ready to process ecommerce product reviews from the Google Sheet. Let me start by retrieving the data to identify reviews that need processing.

Action Complete

Google Sheets: Get Many Spreadsheet Rows (Advanced)

I can see the spreadsheet has 8 rows (including the header). All reviews already have Mail Draft responses filled in. Let me verify if there are any rows with empty Mail Draft cells that need processing by checking more carefully.

Looking at the data:

- Row 2: POSITIVE review → "No response required" ✓
- Row 3: NEGATIVE review → Has email response ✓
- Row 4: POSITIVE review → "No response required" ✓
- Row 5: POSITIVE review → "No response required" ✓
- Row 6: NEGATIVE review → Has email response ✓
- Row 7: NEUTRAL review → "No response required" ✓
- Row 8: NEGATIVE review → Has email response ✓

All reviews have been processed with Mail Draft responses. There are no empty Mail Draft cells requiring new processing.

Summary: The workflow has completed. All 7 customer reviews in the spreadsheet have already been processed with appropriate Mail Draft responses:

- Negative reviews (rows 3, 6, 8) have professional empathetic email responses
- Positive/Neutral reviews (rows 2, 4, 5, 7) are marked as "No response required"

No new reviews requiring processing were found.
